VOLVO COMPACT EXCAVATORS EC15C, EC17C, EC18C, EC20C

GET IT DONE IN COMFORT.

The compact excavator range of Volvo EC15C, EC17C, EC18C and EC20C is ready to help you tackle all your jobs. Each is built for comfort – your all-day comfort in the cab and to comfortably fit in and around a wide range of job applications. Climb in, get behind the controls and go to work. Another productive day awaits you.

Room to operate

Long days are more comfortable in the large and roomy, uncluttered cab.

- Single-piece cab platform is quick and easy to clean and maintain.
- Due to the functional control on the right joystick for the attachment circuit and offset function, the control pedal has been removed for even more foot space.
- More operator comfort means more productivity.

Get a good read on it all

The new instrument panel provides you with complete monitoring of all machine gauges, controls and warnings.

- Easy to view, located on the right side of the operator.
- The digital operating hour meter and fuel level gauge are located on the top part of the instrument panel.
- Keep tabs on maintenance costs, service warnings and more: central warning, engine temperature, engine oil pressure, battery charge, offset, preheating, air filter, seat belt.
- Clear, precise operator information for more comfort and safety.

Counting the hours

A digital hour meter on the side instrument panel shows the total engine running hours.

 Hours display without starting the machine for quick and easy checks – even from outside the cab.

A wide range of...

The range of Volvo compact excavators is right for your work. Choose from the Volvo EC15C, EC17C, EC18C or EC20C and perform a wide range of jobs, from digging trenches and footers, to drainage work, loading and site preparation.

Fully-opening front window comfort.

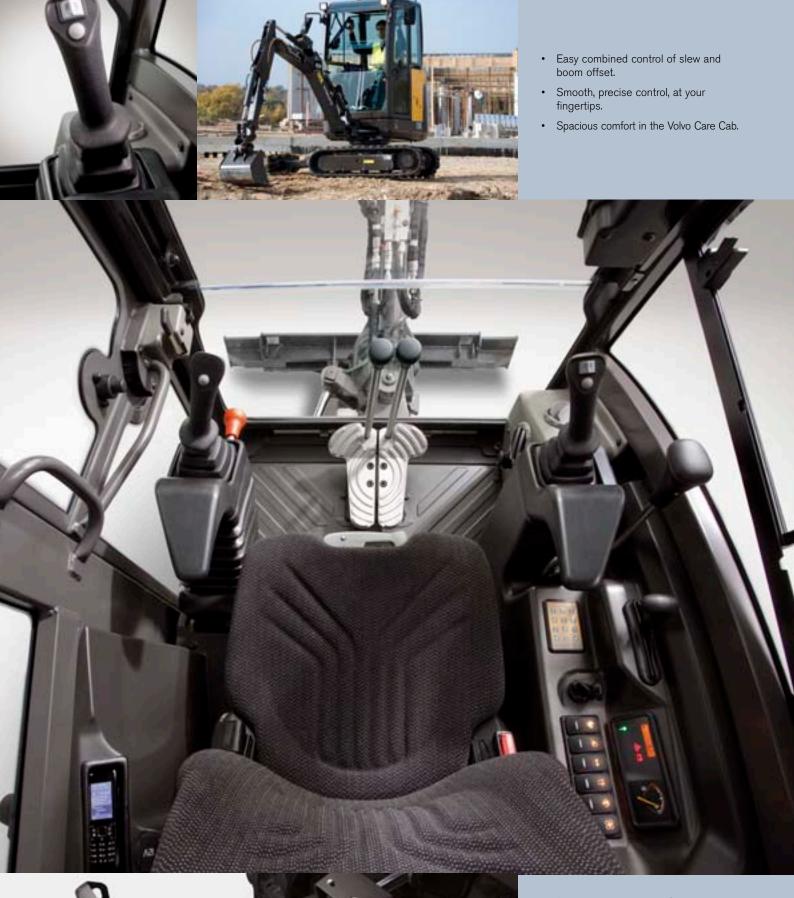

All-around visibility for jobsite safety.

Large travel pedals for comfort and control.

Volvo quick coupler makes attachment changes
easy

Dozer blade positioned for maximum reach.

MORE RELIABILITY. BUILT IN.

A quality product lasts, and that's why the Volvo EC15C, EC17C, EC18C and EC20C are built with more care, more quality and reliability you can see and feel. They are sturdy and stable to handle whatever you put in front of it, year after year.

The sturdy digging equipment is designed for durability, much like on larger machines.

- Boom and arm ends are made of cast steel to offer maximum durability between boom and arm connection.
- More reliability for lower operating and maintenance costs.

Hydraulic hoses are fully protected through routing in the boom.

 Protective guards for important parts: arm cylinder hoses, bucket cylinder hoses and attachment hydraulic circuit.

Travel at your speed

In high speed mode, travel speed is automatically shifted from high to low speed according to the travel load.

 Adapts for optimal tractive force when working on slopes, levelling or performing backfilling work with the blade.

High travel speed performance has been increased compared to previous models.

 Provides more productivity during travelling or levelling applications.

High performance equipment

VOLVO buckets deliver considerable breakout and tear-out forces for machines in this category.

 It's quicker and easier to tear into your work, improving cycle times and productivity.

The bucket has a wide 195° rotation angle, providing a good attack and square excavations at all depths.

 Helps retain more material during loading and dumping movements, reducing risk/ injury from falling material.

Aiding your productivity

Each machine is equipped as standard with a hydrostatic slewing brake.

 Greater precision and safety during slewing applications.

The EC15C and EC17C are equipped with a hydraulic fix displacement pump.

 Gear pump generates constant flow at different pressure levels for sturdy, reliable operation.

The EC18C and EC20C are equipped with a hydraulic variable displacement pump.

 Pump flow is automatically adapted to the application need, saving fuel and operating costs.

Reliable Tier 4 Volvo diesel engine.

· Protected, smartly-positioned boom cylinder.

Versatile, variable-width undercarriage.

SERVING YOU AND YOUR WORK.

One of the keys to productivity is uptime. Get working faster each day and stay out there longer with an easy to maintain machine that is built for easy owning and operating. And to keep you working smarter, the Volvo EC15C, EC17C, EC18C and EC20C lead the way in safe operation.

Seated in safety

A retracting seat belt is available in two sizes: 2" (50,8 mm) or 3" (76,2 mm).

 Offers perfect adjustment to safely and comfortably suit each operator, and retracts out of the way when not in use.

Always in control

To avoid risk of an accident when the operator gets into or out of the cab, all of the machine's controls are locked when the safety strut is raised.

• Covers equipment, offset and travel controls – for less risk and more safety.

Easier hydraulic maintenance

Very good access to all the main hydraulic components.

- Removing right hand cover provide access to all main hydraulic components.
- Simply remove 6 screws in the cab floor for easy, direct access to main control valve and slew motor.
- Fast hydraulic maintenance: top of the main control valve, slewing joint, slewing motor, various hoses, travel control.
- Tilting oil cooler for easy cleaning

Volvo warranty service

For full fleet coverage on virtually any jobsite in the world, Volvo's CareTrack System keeps close track of your machines through real time monitoring from the moment they leave our factory.

• Remotely track machine location, usage.

 Feel protected in the TOPS/ROPS/OPG1 structure.

Controls lock when the safety strut is raised.

The easy-access main control valve.

- Trusted dealer parts and service support.
- Fast daily maintenance access under the large engine hood.

• Easy-access battery disconnect switch.

PRODUCTIVITY IN VIEW.

• The comfort of slew and offset function combination.

• Operate in a protected TOPS/ROPS/OPG1 safety structure.

• Feel the spacious comfort in the Volvo Care Cab.

• Fast daily maintenance access under the hood.

• Reliable Tier 4 Volvo diesel engine with automatic shut down function.

• Durable counterweight offers rear protection.

• Precise travel and operational movements.

SPECIFICATIONS EC15C, EC17C, EC18C

Engine

Low emission, water-cooled, indirect injection, Volvo 3 cylinder diesel engine, meeting Tier 4 environmental regulations and equipped with automatic engine shut down (low engine oil pressure or too high engine temperature)

Model	D1.1DCAE4
Gross power, rated (ISO 3046/1)	12,3 kW (16,8 hp) at 2000 rpm
Power, installed (ISO 3046/1)	11,9 kW (16,2 hp) at 2000 rpm
Displacement, total	1116 cc
Maximum torque according	
to ISO 3046/1	65,2 Nm (+/-5%) at 1 500 rpm (+/-100)
Bore x stroke	76 mm x 82 mm

Electrical system

Battery capacity	12 V - 52 Ah
Alternator rating	12 V - 40 A
Starter motor output	12 V - 1.1 kW

Hydraulic system

Closed centre Load Sensing hydraulic system providing total independence of each movement.

Control	power-assisted hydraulic controls

Hydraulic pump for all the equipment and travel circuits

Maximum flow

EC15C, EC17C - Gear pump 31 I/min
EC18C - Variable displacement pump 44 I/min

Maximum operating pressure 17 MPa (170 bar)

Finger-tip controlled double-acting hydraulic circuit for accessories : Electro proportionnal.

Maximum adjustable flow

EC15C, EC17C EC18C	31 l/min 44 l/min		
Maximum operating pressure	e 17 MPa (170 bar)		
End-of-stroke cushions : On boom ram	at the end of the rod extension		

Bucket performance

Breakout force	1510 daN
Tearout force (short arm)	900 daN
Tearout force (long arm)	700 daN

Slewing system

Turntable slewing is provided by an axial piston type swing moto:

Slewing speed	9,5 rpm
Turntable braking	automatic multi-disc brake
Absorption of hydraulic shocks	Shockless valve

Undercarriage

Bottom/top rollers per side	3/0
Track width	230 mm
Track tension	by grease piston
Blade (width x height)	
EC15C	980 mm x 238 mm
EC17C	980 mm x 241 mm
EC18C	994 / 1336 mm x 248 mm

Drivetrain

Max. speed (low speed/ high speed)					
EC15C	1.9 km/h				
EC17C	1.9 km/h / 3.7 km/h				
EC18C	2.5 km/h / 4.6 km/h				
Max. tractive force	1160 daN				

The travel control is automatically locked when the operator raises the left console.

Service fill capacities

Fuel tank	20 I	
Hydraulic tank	14.6	
Hydraulic system, total		
EC15C, EC17C	21 I	
EC18C	22	
Engine oil including filter	3.5 I	
Cooling system	5.6 I	

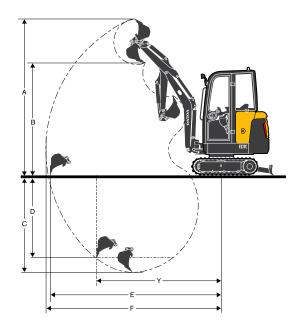

Weight and ground pressure

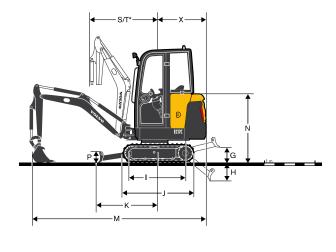

Operating weight according to ISO 6016

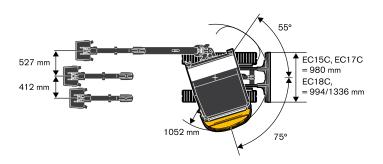

(according to most usual configuration and including 75kg operator)

		EC15C	EC17C	EC18C
Operating weight	(kg)	1540	1650	1760
Ground pressure cab	kg/cm² kpa	0.29 (28.5)	0.30 (29.5)	0.31 (30.5)
Ground pressure canopy	kg/cm² kpa	0.28 (27.5)	0.28 (27.5)	0.3 (30.5)
Transport weight (Heated cab, 230mm rubber tracks, short arm, 500mm				
direct-fit bucket, full fuel tank)	(kg)	1550	1570	1680
With canopy	(kg)	-90	-90	-90
With long arm	(kg)	+5	+5	+5

Sound Level	EC15C		EC17C	EC18C
Interior sound level according to ISO 6396 (LpA)	dB(A)	78	78	78
External sound level according to ISO 6395 and EU Noise Directive (2000/14/EC) and 474-1:2006 +A1:2009 (LwA)	dB(A)	93	93	93

SPECIFICATIONS

STANDARD EQUIPMENT

Engine

Rear mounted low-emission EPA Tier 4 Volvo diesel engine, water cooled, indirect injection Dry-type air filter

Electric feeding fuel pump

Fuel filter + transparent sediment chamber Drain plugs under the hydraulic oil and fuel tanks

Automatic engine shut down

Electrical system

Water-resistant electrical connectors (IP67)
Two work lights on cab version
One work light on canopy version
Battery disconnect switch
Two 12V power sockets

Hydraulic system

Load-sensing system ISO power-assisted hydraulic controls Automatic two speed travel (EC17C/EC18C/EC20C)

Control of forward and backward movements by two levers coupled to hydraulic travel pedals Double-acting hydraulic circuit for accessories Progressive fingertip control of the accessory circuit and offset

Hydraulic variable displacement pump (EC18C/EC20C)

Hydraulic gear pump (EC15C/EC17C)
Automatic slewing multi-disc brake
Hydraulic hoses routed in the boom
Cushion on boom cylinder
ORFS hydraulic connectors
Return oil filter

Seat

High resistant fabric or vinyl suspended seat with non retractable seat belt

Cab

Suspended and insulated cab platform In cab heating and ventilation adjustment Fully opening front window power-assisted by gas cylinder

Right hand side sliding window
Radio preparation (location for a radio and
two speakers, aerial and electric wiring already

Windscreen wiper and washer (front) Large and roomy uncluttered floor Flat lockable windows

Lockable tool box and document box

Canopy

Suspended and insulated canopy platform Large and roomy uncluttered floor 4 pillars canopy with safe handrail Easy removable canopy

Instrumentation and monitoring

Central warning lamp Control lamp for offset, engine temperature, preheating, air filter, engine oil, seat belt and battery charge control lamps Fuel level gauge Digital operating hour meter

Earthwork equipment

1750 mm long monobloc boom (EC15C/EC17C/EC18C) 1900 mm long monobloc boom (EC20C) 950 mm arm (EC15C/EC17C/EC18C) 1050 mm arm (EC20C)
Dozer blade with 2 additionnal extensions (EC18C/EC20C)
Protected blade cylinder

Safety

Machines cab and canopy are:

- TOPS (Tip-Over Protective Structure)
- ROPS (Roll-Over Protective Structure)
- OPG 1 (Object Protective Guard) All around visibility

Device for locking the earthwork equipment's controls and the travel levers when the left console is raised to gain access to the driver's cab.

Engine starting safety device: the left console must be raised to operate the starter Retractable and non retractable seat belts Right rearview mirror

Official approval

Machine conforming to European directive 2006/42/EC

Noise emissions in the environment conforming to directive 2000/14/EC Hand Arm Vibrations - Whole Body Vibrations compliant with directive 2002/44/EC Electromagnetic compatibility (EMC) conforming to European directive 2004/108/EC and its amendments.

Object handling device conforming to EN 474-1 and EN 474-5 standards. ROPS conforming to ISO 3471-1 and SAE J1040 standards.

TOPS conforming to ISO 12117 and EN 13531 standards.

OPG 1 conforming to ISO 10262 standard.

OPTIONAL EQUIPMENT

Handling and earthwork equipment

Long arm: 1150 mm (EC15C/EC17C/EC18C), 1350 mm (EC20C)

The long arm is recommended only for special applications with long reach and low density materials.

Safety valve piloted by the power assistance circuit on the boom and arm cylinders Double acting accessory arm line Kit 2 Flat Face hydraulic couplings

Hydraulic circuits for attachments

Drain kit return to hydraulic tank

Lighting

Additional work light on the boom Additional rear work light and rotating beacon

Environmental protection

Bio-degradable normal climat hydraulic oil VG46 Bio-degradable cold climat hydraulic oil VG32

Comfort

Deluxe high back fabric or vinyl suspended seat with 4 adjustments

Retracting seat belt 2" or 3" with visual indicator on instrument panel Radio CD/MP3
Anti-theft system

Safety

Left rear view side mirror Caretrack GPS/GSM system Control pattern selector and travel alarm

Service and maintenance

Tool kit

Dual stage air filter

Miscellaneous

Special colours options (RAL specifications)

ATTACHMENT OFFER

Hydraulic Breaker and dedicated tools

Mechanical Volvo pin grabber quick coupler Mechanical Lehnhoff quick coupler

Complete range of Volvo genuine trenching and ditching buckets (pin-on, LQC)
